Version 1.0

Introduction

This document intends to find the origins of the Na'vi vocabulary, more specifically the compound words, those that are made from other existing words and particles of the language.

I hope this document is as accurate as possible. Thanks to Paul Frommer's blogs, we have many attested etymologies here. If you find a mistake or an inaccuracy, please tell the author so that the correction can be made.

Special thanks to Tirea Aean and Wllim for their contribution.
